office of Engineering & Maintenance, 116
North Road, Brentwood, NH

**REQUEST FOR PROPOSAL
HVAC EQUIPMENT REPLACEMENT
ROCKINGHAM COUNTY COMPLEX
16 AUGUST 2022**

Addendum: #2 September 15, 2022

Fernald-I Country Kitchen and Dietary offices – Both units will require a rooftop condenser. All parties that attended the mandatory walk through were told this was a requirement and all attendee's took pictures of the units.

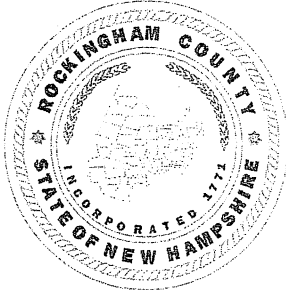

Fernald-I Country Kitchen Unit – If pipe sizing of new unit matches the existing unit's piping and the line-set is flush, a connection would be sufficient. If pipe sizing must be increased, a new line-set would have to run.

Dietary offices unit: Currently has one power feed to power the unit itself and heaters. A new power feed for the heaters would be required from the electrical room where the breaker panel is located. There is room in the panel for a tie in, clarified with the house master electrician.

Sincerely,

Jude Gates, Senior Director of Facilities, Planning & IT
